

## Health Insurance Professional Program Kickoff Honors Associates

August 15, 2008

The Health Insurance Professional Program (HIPP) held its fourth annual kickoff event in Indianapolis in June to welcome new HIPP associates and recognize those completing the program.

HIPP is an accelerated talent management program that is designed especially for high-potential, emerging professionals. This innovative three-year program offers professional training and development through one-year rotations in a full-time role in a number of our enterprise business units.

Three new HIPP associates were welcomed during the event:  
Miriam Branchcomb, Finance PMO, Kentucky  
Kit Leung, Hospital & Physician Relations, California  
Kate Weber, Health Care Management University, Indiana

HIPP also welcomed two summer interns, Shaun Caldwell and Sharda Sekaran. Both are beginning the second year of their MBA programs this fall at Emory University.

During the event, graduating HIPP associates, Jon Macklin and Brian Lower, were also recognized for outstanding accomplishments during their tenure with HIPP. Jon accepted a program director opportunity based in Atlanta, Ga., and Brian Lower accepted a program manager opportunity for Central Market Cost of Care in Louisville, Ky.

HIPP kickoff participants also raised money and held a toy drive to benefit the Indiana Make-a-Wish Foundation.
